Roll-On Packaging

For deodorants and anti-perspirants

Weener Plastics designs, develops and manufactures high quality roll-on packaging for deodorants and anti-perspirants. The product designs, materials and functionalities are constantly improving to serve the latest customer needs and meet environmental requirements.

Complete Pack

The complete pack is offered: bottles, fitments, balls and caps. Many standard products are available but customized solutions can be developed.

Roll-on Balls

Weener offers a wide range of roll-on ball diameters. Innovative internal and external decoration on the ball is also available, offering a wide range of deo packaging alternatives.

State-of-the-art Production

All factories within the Weener Group are equipped with state-of-the-art machines and equipment. High quality moulds are manufactured in Weener's own tool shop in Germany and transferred to the factories, ensuring the highest quality and repeatability.

Global Production Network

The packaging components are produced by injection moulding, injection blow moulding and injection stretch blow moulding processes. Thanks to the global production network, customers can be served worldwide.

Unique Benefits

- Complete pack
- Broad standard range
- Customized solutions on request – either head stand or conventional format
- Modern infrastructure
- Global production network

Specifications Balls

- Hollow and solid balls
- Diameters ranging from 10.16 mm to 35.56 mm
- Variety of plastic materials
- Decoration optional

Specifications Bottles

- Screw applications
- Content 50 ml
- Material PP
- 1 and 2 piece bottles
- Several decorations possible
